

Webinar: Special Edition

The Farm Bill: What's in it for Dairy

How does the new Farm Bill impact your dairy income?

What are the options for your dairy? What is the new dairy insurance?

What tools are available to help make decisions?

PRESENTED BY: Dr. Mark Stephenson, Director of Dairy Policy Analysis

Mark Stephenson is the Director of Dairy Policy Analysis since July, 2010. In this position, Dr. Stephenson conducts and coordinates research and outreach activities related to the dairy industry. He is involved in applied research at the farm-level, including milk assembly costs, processing costs and efficiencies, new processing technologies and new dairy ingredients. He is also active in sector-level performance including dairy policy and price forecasting. Mark has a second title as Director of Wisconsin's Center for Dairy Profitability. In this capacity, he works with faculty and staff to coordinate a multi-disciplinary approach to dairy farm-level problem solving and planning.

This webinar will be LIVE on Wed., October 22 from Noon – 1:00 p.m. CDT

A recording of this webinar will be available to those who pre-register.

Wednesday, October 22, 2014 (register by October 15)

The new Farm bill provides risk management opportunities for dairy operations and this webinar will outline how the new voluntary program pays participating dairy farms when their income over feed costs falls below the insured level. Hear from expert Dr. Mark Stephenson as he shares details regarding the Margin Protection Program (MPP), pricing structure to participate and at what levels you can insure. All dairy producers are eligible for this program and provides a safety net during volatile times.

Sign up today online or call PDPW to register by October 15.

Registration is FREE.

You must PRE-REGISTER your computer.

*** If you have a date/time conflict, you can watch a fully recorded version at your leisure.
